100024BS003	This course is contained on a CD-ROM	Diagnostic	3 hours

Description

If English is not your first language, you might want to improve your reading and writing. But do you know where to start?

English Skills Check will help you. It will let you see how much English you already know and which areas need more practise.

You will be asked to answer lots of different word questions. Don't worry – the questions are fun so it won't seem like hard work!

The questions get more difficult until you find the level of learning that's right for you. At the end of the course you will be given a learning map that shows exactly which areas of English you need to focus on.

Why not take the first step to improving your English with English Skills Check?

What will I learn?

When you have finished the course, you will find it easier to:

- Understand how strong your reading, writing, speaking and listening skills are
- Print out a learning plan to help you improve your English

What skills do I need to go on the course?

The staff at your local **learndirect** centre will assess your skills. Once they have assessed your skills, they will help you to decide if this is the right course for you.

Course modules

- Practise questions
- Check my skills – listening, reading or writing
- See my Learning Map
- Check for dyslexia
